

Minimum Requirements

1. Scope:

MARITIME EXPEDITIONARY SECURITY GROUP TWO (MESG-2) requires the purchase of navigation SD-cards to update electronic chart systems of FURUNO radars VX2 and NN3D systems on MESG-2 patrol boats.

2. Requirements:

Current SD-cards are over two years old and outdated for navigation standards set forth in CORIVFOR Inst 3530.1. Chart corrections left ignored would create a hazardous situation for MESG-2 patrol boats. MESG-2 requires the SD-cards to remain in compliance with CORIVFOR Inst 3530.1 and compatible with FURUNO radar VX2 and FURUNO radar NN3D systems. All charts will be of latest version. In order to ensure critical chart data updates to the navigation systems, the following quantities for FURUNO systems Navigation SD-cards are needed:

Item	Part #	Item Description	QTY
Latest Version NN3D Systems			
		NEW UNLOCK Initial purchase:	
1	NA-M033	(New Unlock) NavNet 3D System chart: Atlantic Coast, Gulf of Mexico and Caribbean (Latest Version)	30
