**MEMORANDUM FOR MICC-Fort Drum**

**SUBJECT: Brand Name Exact Match Memo for Unison Buy #1125587**

1. Wheeler Sack Army Airfield (WSAAF) has a specific brand of de-icing fluid on hand and only has one container to store it in. It is not recommended to mix products so the customer is requesting an exact match of their current product.
2. When the SDS sheets on different liquid de-icers are reviewed, it is recommended that different products not be stored in the same container.
3. Since the airfield currently only has one container to store liquid de-icing fluid, it is recommended that they use the same type of fluid as they currently have on hand which is DOW UCAR PG Type I Deicing fluid.
4. For the reasons listed above, the WSAAF requests that a brand name or particular item(s) purchase of de-icing fluid.
5. If there are any questions, please contact the Contracting Officer at [usarmy.drum.acc-micc.mbx.micc@army.mil](mailto:usarmy.drum.acc-micc.mbx.micc@army.mil)
