Required Delivery date: **45 Days ARO**

In conclusion, the requested supplies or services represent the minimum requirements of the government.

☒ *The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.*

MESG-2 operates patrol boats using FURUNO radars, NN3D and VX2 systems that are specifically models MFD12 and 1833C/NT, respectively. This radar equipment only uses SD-card charts manufactured by C-MAP. C-MAP has hundreds of vendors that are authorized resellers of these SD-card charts. This radar equipment only uses SD-card charts manufactured by C-MAP. Other SD-cards are not readable by the installed equipment.

☐ *A patent, copyright or proprietary data limits competition.*

☒ *These are "direct replacement" parts/components for existing equipment.*

This radar equipment only uses SD-card charts manufactured by C-MAP. Other SD-cards are not readable by the installed equipment.

Other information to support a brand name action:

Source Selection Information – See FAR 2.101 and 3.104

This is a Brand Name Requirement. There are many authorized vendors of C-MAP SD-Cards that are compatible with the customer's installed equipment.
