MEMORANDUM FOR MICC-Fort Drum

SUBJECT: Brand Name Exact Match Memo for Unison Buy

1. The Forces Command (FORSCOM) and Reserve Command (USARC) Headquarters has 5 primary access control points. Currently, we are in the process of replacing our X-Ray Security Inspection Systems. We have (2) AutoClear 6040 DVS systems on hand and (2) additional AutoClear 6040 DVS are required. Additionally, current parts on hand are for the AutoClear 6040 DVS.
2. Purchasing from a different company would increase budget requirements to keep parts on hand for separate systems.
3. Auto-Clear is the company of our Security Inspection Systems; any authorized dealer can procure Auto-Clear equipment to meet the requirement of buy.
4. In keeping the AutoClear inspection System, it would eliminate additional training to operate new equipment and allow ease of work thru equipment familiarity.
5. For the reasons listed above, the FORSCOM/USARC requests that a brand name or particular item(s) purchase of Security Inspection System.
6. If there are any questions, please contact the Contracting Officer at usarmy.drum.acc-micc.mbx.micc@army.mil
