

[REDACTED]
[REDACTED] [REDACTED] [REDACTED]
Dear [REDACTED],

A detailed design plan for your project is provided below. This design plan includes all shipping and all sales taxes.

Handcrafted in the USA: Stoneside custom-makes all window coverings in our modern US facilities.

Satisfaction Guarantee: Stoneside provides a satisfaction guarantee. See details at www.stoneside.com/company/warranty.

Limited Lifetime Warranty: Stoneside provides a limited lifetime warranty on all blinds and shades.

Easy Financing Options: Choose between 6 month same as cash or low interest rate financing on orders over \$4,000.

Please call us with any questions at [REDACTED]

You can read more about each of these products by visiting our website, navigating to the product, and clicking on 'Details'

Our mission is to provide a quality product and a 5-star experience. We look forward to delivering on that promise.

Sincerely,

[REDACTED]

Service Details

Professional Blinds & Shades Installation Services	
High Ladder Work (Over 10 Feet High) - Region B	
Additional Fees - Region B	

Carefully Review all Details of this Proposal

Products Proposed

Please review the following information regarding the products you have been proposed:

Roller Shades

- Inside mount Light Filtering and Blackout Roller Shades have an approximate 5/8" light gap between the edge of the fabric and the window frame and will allow a significant amount of light between this gap.

Backorders

The supply chain of raw materials has been disrupted over the last year due to the worldwide pandemic. This lack of available materials occasionally results in some materials becoming unexpectedly unavailable, creating a "backorder". In some cases, a back-ordered material can delay the completion of a product by weeks or months. If we encounter a backorder on one of the products in your order, we will notify you as soon as we become aware of the problem. This notification may happen any time between the day you place your order and the day we ship your order from our factory. If we notify you of a backorder, you may choose from three options:

- Select an alternate material for the affected blinds, shades, or draperies
- Cancel the portion of your order impacted by the backorder
- Agree to wait until the back-ordered materials arrive

To minimize the impact of any backorders, we suggest you work with your Stoneside Design Consultant to select an alternative fabric before placing your order. By choosing an alternative material in advance, we will likely be able to quickly substitute your alternative selection and minimize delays in completing your order.

Installation Date

Upon approval of your order, we will reach out to you via text message, email, or a phone call within one business day to schedule your **Final Measure**.

Your windows coverings are estimated to be ready for installation within **6 to 7 weeks after you approve this order**.

We will contact you immediately if we determine your installation could be delayed.

In Some Instances, Additional Installation Charges May Apply.

Occasionally, at the final measurements appointment or during installation, we determine that your installation requires mounting into steel, concrete, or tile or requires scaffolding to complete the installation. If we did not include a charge for this in your order, you will be charged an additional fee for each blind/shade that must be installed in steel, concrete, or tile or for scaffolding.

If you request temporary shades at the final measure appointment and these temporary shades were not originally included in your order, you will be charged for these temporary shades.

If it is necessary for our installer to remove existing window treatments to install your new blinds or shades, and we did not include a charge for this in your order, you will be charged an additional fee for each blind or shade that must be removed.

Cancellations, Refunds, and Returns

You have three days from the date you approve your order to cancel the order with a full refund.

If you cancel your order after three days and before your final measure is completed, you are responsible for 50% of the order amount. If you cancel your order after three days and after your final measure is complete, you are responsible for 100% of the order amount.

Stoneside products are custom-made to your exact needs. After the final measure is completed, your order enters the manufacturing process, and we are unable to offer cancellations, returns, credits, or refunds. If for any reason, we determine that

[REDACTED]

the products or services provided do not meet specifications, we will repair or replace the products so that the products and services meet specifications.

Changes to this Order or Replacing Products in this Order

Within 30 days of the date your blinds, shades, or draperies are installed, if you would like to change the product, fabric, or product options, you may purchase a replacement product of your choice and receive a credit equal to the lesser of 50% of the price of the original product or 50% of the price of the replacement product.

Limited Lifetime Warranty

Stoneside offers a limited lifetime warranty which is incorporated as part of this Agreement by reference. Go to <http://www.stoneside.com/company/warranty> to view our warranty.
