

## 52.212-2 EVALUATION

### II. Addendum to FAR Clause 52.212-2 Evaluation

#### Evaluation Factors for Award

- a. Basis for Contract Award. This is a best value source selection conducted in accordance with Federal Acquisition Regulation (FAR) 13, Simplified Acquisition Procedures, as supplemented by the Defense Federal Acquisition Regulation Supplement (DFARS), and the Army Federal Acquisition Regulation Supplement (AFARS). The test program authorized under FAR Subpart 13.5 is applicable to this acquisition. Award will be made to a single offeror who is deemed responsible in accordance with the Federal Acquisition Regulation (FAR), whose offer is technically acceptable, conforms to the solicitation requirements, and whose offer, judged by an overall assessment of the evaluation criteria and other considerations specified in this solicitation, represents the lowest price.
- b. Award for All of the Work. The Government intends to award one firm fixed price contract as a result of this solicitation. As set forth in FAR 52.212-1 (g), the Government intends to evaluate quotes and award a contract without discussions with offerors. Therefore, the offeror's initial quote should contain the offeror's best terms from a price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary.
- c. Evaluation Criteria. *Product samples.* A sample of one (1) Patch, Rank Blank OCP, one (1) Patch, Class Numeral 26, one (1) Patch, Company Patch, HCC USCC, one (1) Patch, Company Patch, A-1, one (1) Patch, Company Patch, E-2, one (1) Patch, Company Patch, A-3, one (1) Patch, Company Patch, D-4, one (1) Patch, Company Patch, F-4, one (1) new Patch A1 and one (1) new Patch D4 is required at/or prior to the time specified for receipt of offers (see 52.212-1 Addendum). These samples shall be submitted at no expense to the Government. Samples will be evaluated in accordance with the evaluation criteria listed below. Evaluation criteria consist of factors. The quote will be evaluated under TWO (2) evaluation factors: Sample and Price.

**Factor 1 – Sample.** The Sample will receive a rating defined below.

Table 1. Technical Factor Acceptable/Unacceptable Ratings	
Rating	Description
Acceptable	Sample clearly meets the requirements stated in the evaluation criteria
Unacceptable	Sample does not clearly meet the requirements stated in the evaluation criteria.

Examination results. Examination results shall be either pass or fail. In order to receive an acceptable rating and to pass the Visual examination, the sample submissions shall have **no Major Defects or less than 4 Minor Defects**. All other results will be considered failing results.

Samples will be evaluated in accordance with the evaluation criteria stated below:
