MEMORANDUM FOR MICC-Fort Drum

SUBJECT: Brand Name Exact Match Memo for Unison Buy # 1163800

1. Requesting to purchase brand name Motorola Hand Held Radio series APX8000. This item is currently in use on Fort McCoy and the Land Mobile Radio system currently in place on Fort McCoy only supports the Motorola radios. If we purchase different radio systems we will also have to purchase a separate Land Mobile Radio Trunking system compatible with these hand held radios and have it installed on Fort McCoy.
2. Research that was conducted on similar hand held radios do not configure with the Motorola Trunking device installed on the installation and our Network Enterprise Center (NEC) will not issue program IDs for any other type of hand held radio system other than Motorola radios.
3. Currently Fort McCoy's infrastructure is only capable of supporting the Motorola Radios which makes this brand name purchase cost effective for the government while satisfying the requirement.
4. For the reasons listed above, the Fort McCoy, WI Logistics Readiness Center requests that a brand name purchase of the Motorola Series APX8000 be authorized.
5. If there are any questions, please contact the Contracting Officer at [usarmy.drum.acc-micc.mbx.micc@army.mil](mailto:usarmy.drum.acc-micc.mbx.micc@army.mil).
